

Errata

Margherita Barbero, Iacopo Degani, Nicola Diulgheroff, Stefano Dughera, Rita Fochia *Synthesis* **2001**, 2180.

On page 2185, right column, last line, the word comparable was present in place of intermediate. The correct sentence should read as follows:

These last conversions could have a positive outcome in the absence of any catalyst as the presence of nitro groups on the aryl of the triazenes **3c,f,g,k,l** allowed the electron transfer to the arenediazonium cations from the bromide anion, that has, as it is known,¹¹ a redox potential **intermediate** to that of iodide and chloride anions.
