

Houben–Weyl Volume E22: Table of Contents

Synthesis of Peptides

Volume E22a

- I Preface
- 1 Scope of the Volumes
 - 1.1 Historical Aspects
 - 1.2 General Concepts in Peptide Chemistry
- 2 Protection of Functional Groups
 - 2.1 Amino Group
 - 2.2 Carboxy Group
 - 2.3 Amide Group
 - 2.4 Photocleavable Protecting Groups
 - 2.5 Enzymatic Cleavable Protecting Groups
 - 2.6 Other Side-Chain Protections
- 3 Peptide Bond Formation
 - 3.1 Acid Azides
 - 3.2 Active Esters
 - 3.3 Acid Halides
 - 3.4 Acid Anhydrides
 - 3.5 Carbodiimides
 - 3.6 1,1'-Carbonyldiimidazole
 - 3.7 Phosphonium Salts
 - 3.8 Uronium/Guanidinium Salts
 - 3.9 Miscellaneous Reactions
- 4 Synthesis of Peptides
 - 4.1 Synthesis of Peptides in Solution
 - 4.2 Enzymatic Synthesis
 - 4.3 Synthesis of Peptides on Solid Supports
 - 4.4 Multicomponent Reactions

Volume E22b

Introduction to Volume E 22b

- 5 Methods for Protein Synthesis
 - 5.1 History of Protein Synthesis
 - 5.2 Protein Synthesis in Solution
 - 5.3 Examples of Protein Synthesis on Solid Support
 - 5.4 Semisynthesis
- 6 Specific Methods
 - 6.1 Synthesis of Cystine Peptides
 - 6.2 Synthesis of Cystine Peptide Analogues
 - 6.3 Synthesis of Glycopeptides
 - 6.4 Synthesis of Lipopeptides
 - 6.5 Synthesis of Phosphopeptides
 - 6.6 Synthesis of Sulfated Peptides
 - 6.7 Pyroglutamic Acid Peptides
- 7 Analytics of Synthetic Peptides
 - 7.1 Purification of Synthetic Peptides
 - 7.2 Chromatographic Methods
 - 7.3 Amino Acid Analysis
 - 7.4 Racemization Assays
 - 7.5 High Resolution NMR Spectroscopy
 - 7.6 Mass Spectrometry
 - 7.7 Spectroscopic Methods
 - 7.8 Quality Standards and Comparative Syntheses

Synthesis of Peptidomimetics

Volume E22c

- 8 Introduction to the Synthesis of Peptidomimetics
- 9 Side-Chain-Modified Peptides
 - 9.1 Synthesis of Side-Chain Conformationally Restricted α -Amino Acids
 - 9.2 Synthesis of Peptides Containing Proline Analogues
 - 9.3 Synthesis of Photoreactive Peptides
 - 9.4 Synthesis of Peptides as Receptors and Devices
 - 9.5 Synthesis of Cycloisodityrosine Peptides
 - 9.6 Tryptathionine Peptides
- 10 Main-Chain-Modified Peptides
 - 10.1 Synthesis of N-Alkylated Peptides
 - 10.2 Synthesis of Depsipeptides
 - 10.3 Synthesis of Peptides Based on C $^{\alpha}$ -Tetrasubstituted α -Amino Acids
 - 10.4 Synthesis of Azapeptides
 - 10.5 Synthesis of Peptides Containing Carbaamide Bond Replacements
 - 10.6 Synthesis of Peptides Containing C/O Amide Bond Replacements
 - 10.7 Synthesis of Peptides Containing C/N Amide Bond Replacements
 - 10.8 Peptides Containing C/N/O Amide Bond Replacements
 - 10.9 Synthesis of Peptides with Sulfur-Containing Amide Bond Replacement
 - 10.10 Synthesis of Peptides with Phosphorus-Containing Amide Bond Replacements
 - 10.11 Synthesis of *retro-inverso*-Peptides
 - 10.12 Synthesis of Peptides Based on β -Amino Acids
 - 10.13 Synthesis of Peptides Based on γ -Amino Acids
 - 10.14 Synthesis of Peptides Containing Ureine and Urethane Linkages
 - 10.15 Synthesis of Peptides Containing an Aromatic Spacer
- 11 Combined Side-Chain- and Main-Chain-Modified Peptides
 - 11.1 Synthesis of Peptides Based on α,β -Didehydro α -amino Acids
 - 11.2 Synthesis of Peptides Based on Aromatic Heterocycles
- 12 Peptides Incorporating Secondary Structure Inducers and Mimetics
 - 12.1 Synthesis of Peptides Incorporating β -Turn Inducers and Mimetics
 - 12.2 Synthesis of Peptides Incorporating γ -Turn Inducers and Mimetics
 - 12.3 Synthesis of Peptides Incorporating Helix Inducers and Mimetics
 - 12.4 Synthesis of β -Sheet Peptides and Proteins Incorporating Templates
 - 12.5 Synthesis of Peptides with Sugar Amino Acids
 - 12.6 Peptide Nucleic Acids

Volume E22d

Introduction to Volume E 22d

- 13 De Novo Peptide Structures
 - 13.1 Template-Assembled Synthetic Proteins
 - 13.2 Design, Synthesis, and Characterization of α -Helices and Coiled Coils
 - 13.3 Design, Synthesis, and Characterization of Head-to-Tail Cyclic β -Sheet Peptides
- 14 Macropeptide Structures
 - 14.1 Synthesis of Peptide Dendrimers and Protein Mimetics
 - 14.2 Synthesis of Peptide Polymers
- 15 Reactive Peptides
 - 15.1 Synthesis of C-Terminal-Modified Peptides
- 16 Synthesis of Peptide Natural Products

Volume E22e

- 17 Authors' Index
- 18 Keyword Index
- 19 Preparation Index
