

# Balticum Organicum Syntheticum BOS2010

June 27-June 30, 2010

## The Sixth International Conference on Organic Synthesis

*We welcome you to Riga, Latvia, some of you for the 2<sup>nd</sup> time, for four days of organic chemistry, and a unique cultural, linguistic and social experience!*

### The following chemists will present lectures:

Phil S. Baran	Scripps Research Institute, USA	Margus Lopp	Tallinn Univ. of Technology, Estonia
Martin D. Burke	University of Illinois, USA	Andrei Malkov	Loughborough University, UK
Peter Buehlmayer	Novartis, Switzerland	Istvan Marko	Univ. Catholique de Louvain, Belgium
Prashant Deshpande	Bristol-Myers Squibb, USA	Andrew G. Myers	Harvard University, USA
Klaus Ditrich	BASF, Germany	Hans Reich	University of Wisconsin, USA
Alois Fürstner	Max Planck Institute, Germany	Peter Seeberger	Max-Planck-Institute, Germany
William Greenlee	Merck & Co., USA	Edgars Suna	Latvian Inst. of Org. Synth., Latvia
Amir H. Hoveyda	Boston College, USA	Dean Toste	University of California, Berkeley, USA
Louis Jungheim	Eli Lilly, USA	M. Christina White	University of Illinois, USA
Robert D. Larsen	Amgen, USA	Tony Zhang	Eli Lilly, China

**Organizing Committee:** Victor Snieckus, (Queen's U., Canada), Eugenijus Butkus (Vilnius U., Lithuania), Jaan Pesti (Bristol-Myers Squibb, USA), Janis Upeslacis (Wyeth, USA), John Duncia (Bristol-Myers Squibb, USA), Peteris Trapencieris (Latvian Institute of Organic Synthesis, Riga, Latvia)

**Scenes of Old Riga, a UNESCO World Heritage Site**
